OR

shane turns to reddit to sort out his feelings after leaving ilya... and keeps asking questions

Notes

hi! this is my first fic for the heated rivalry fandom and the first fic i've actually finished in a while (nothing pushes you to write fic like procrastinating an assignment).

i have so far only watched the show but i'm in the process of reading the books and used the book timeline on the fandom wiki to get ages and months and years correct. if something is still wrong please let me know!

i hope you enjoy!

AITA for leaving after the guy I've hooked up with for years called me by my first name?

Hi, this is my first post. Sorry if I format anything wrong. So I (M25) have been hooking up with this guy (M25) on and off for six years. We were hooking up at his apartment and usually it's just we have sex and clean up, chill a little bit, then go our separate ways. But this time he asked me to stay longer? And he had my favorite drink in his fridge even if he doesn't drink it at all. Then he offered to make me food (he did) and we ate and watched some TV. He even cuddled me a bit on the sofa. This is not what we usually do? So I think I freaked out a little? And when we were cuddling I started feeling him up again because this is what we DO. We were getting into it on the sofa and he called me by my first name. It was such a big shock to me because we only ever call each other by our last names? It's something we've done since we met 8 years ago. I think it got a bit too much for me? So I just left him sitting there. I think I might have hurt him... But at the same time he changed our routine. It was too overwhelming for me. AITA?

NTA. I don't really think you're the asshole for leaving like that, especially because you acknowledge how you hurt him. I do think that you could have probably dealt with it a bit better? Have you spoken to him since?

Jane_4218 • 3h ago

No, I don't think I can talk to him. I'm just so confused

notchoppedjustunc • 2h ago

NTA. how the hell have you been surviving a situationship for 6 years?? why are the two of you not talking to each other?? if he's asking you to stay longer and cooking for you and buying your favorite drink and wanting to cuddle you he might just be in love with you?

Jane_4218 • 2h ago

If he's in love with me then our entire relationship will change. It will affect everything about our lives. It's dangerous for us to be in love. If we're in love, staying secret will be so much harder. How am I supposed to keep him a secret from my family if I'm in love with him? They all have this awful perception of him that isn't true. And it's dangerous for him to be in love with me.

notchoppedjustunc • 2h ago

are you guys not out or what?

Jane_4218 • 2h ago

I'm not gay. And he hooks up with women all the time. He even talked about it when we were eating dinner.

notchoppedjustunc • 2h ago

dude you have bigger issues than leaving when your hookup says your name if you can't see that you're into men after being with one for SIX YEARS

I've been with this girl for a month and every time we have sex I can't get hard, is something wrong with me?

Hi, so I (25M) have been dating this girl for a month or so. She's very attractive, I think it's fun to hang out with her and she makes me laugh. The problem is that every time we try to have sex I can't get hard. It's embarrassing because I do like her but I'm disappointing her all the time. Is something wrong with me? Can I fix this?

 4.7K  | 2956 Comments

quartermaster • 9h ago

I mean dude are you sure you're into her? And if you're disappointing her are you just kinda stopping the sex when you realize you aren't hard?

Jane_4218 • 9h ago

Yeah of course I'm into her I should be. She's objectively attractive, and we have good conversations. And yeah I make sure she gets off with my fingers haha.

quartermaster • 9h ago

"I should be [into her]" is probably not what your girlfriend wants to hear you say about her. You should not be pressuring yourself to be with someone if you're not into it my guy

notchoppedjustunc • 7h ago

wait didn't you post a month ago about hooking up with a guy for six years??? you clearly didn't have a problem getting hard then. dude you're GAY

Jane_4218 • 7h ago

I'm not gay.

I'm gay

I (25M) hope this is the right subreddit for this, I'm sorry if it's not. Recently after talking with my girlfriend (ex now) I for the first time acknowledged that I'm gay and not into women in any romantic capacity.

My job is really tough and unwelcoming to anyone that isn't the "norm". No one is out. I think I've known this truth about me for a long time but I've been avoiding properly thinking about it because the reality of what this means for me and my career is terrifying. I'm not gonna come out, to anyone I think, but at least I can admit it to myself now.

i recognize you, i've kinda been on your ass about this, sorry. i'm glad that you are able to at least in some way live truer to yourself. i hope realizing this is able to lift some weight off your shoulders, even if you can't be out and free in the way you deserve to be.

Jane_4218 • 3h ago

Thank you. I wasn't able to confront it earlier when you were saying it. I think I needed someone I trusted to talk to me about it.

firstmate • 3h ago

If your work environment is like this, maybe you need to get a better job. This is so toxic and unsafe.

I'm in love with the guy I've been hooking up with

I (M25) think I might be in love with my friend (M25)? Coworker? I'm not sure how to conceptualize what he is to me because our job is so odd. But we have known each other since we were 17 and have been hooking up occasionally throughout the past 6 years. Being in love with him is more terrifying than being outed. My friends and family have this idea of him, they believe this "bad boy" persona he puts on (he smokes cigarettes, is kind of an asshole, has a reputation for being with a lot of women) (we are not exclusive). I know it's not real and that he can be sweet and is dealing with a lot of issues but if everyone at my work found out that I'm gay and that I've been with him and am in love with him I think my career would be over. They will all think I've lied to them for ages and will question my integrity. It would be even worse for him because his home situation would be dangerous if it was revealed that he is into men. Even with all these fears and worries I can't get him out of my mind. I can't let him go.

I was recently injured and he came to visit me in the hospital even if he didn't have to. I was a bit high on medication but I invited him to my house over summer when we have a break from work. He said "maybe" but I hope he decides to come visit. Maybe we can actually talk this time. I hope he's in love with me too. I hope we can be together, in whatever way that would mean for us.

The guy I've been hooking up with for seven years admitted he's in love with me

I am so fucking happy. I (M26) think I've been in love with him (M26) for years but only realized it earlier this year. We were able to get time off together this summer and we decided to be honest with each other. He told me he loved me. I said it back. I love him so much. It is going to be really hard to make our relationship work due to our work and the fact that we have to keep our relationship secret. We can't really tell anyone about it. But I think we will be able to make it work. We're even making plans on ways to protect him from his home situation (he's from a country where it is really dangerous to be queer) and to be able to be closer to each other.

Congrats man I'm so happy for you! I can't believe you were in a seven year situationship before you got serious though.

Jane_4218 • 8h ago

Thank you! We had to work through quite a few obstacles but it's worth it.

I'm going to propose to my boyfriend

I (M29) am going to propose to my boyfriend (M29) soon. I know he'll say yes but I'm struggling to figure out how to do it. Does anyone have any advice?

▲ 1.3K ▼ | 122 Comments

gunner_michigan • 4h ago

Honestly, if you love each other it doesn't really matter how you do it because it will be meaningful regardless. If you have a location that is special to the two of you and your relationship it would be nice to do it there. Then just speak from the heart.

Jane_4218 • 3h ago

Thanks for the advice. Yeah I think I'm going to do it at my cottage because that's where we said I love you for the first time.

gunner_michigan • 3h ago

That sounds perfect dude, you've got this!

queersticks • 1h ago

I hate that they were outed like that. It must be a fucking horrible feeling (although oh my god they look good together)

loserass • 1h ago

I hope Crowell does his job and fires both of them. Fags like them have no place in hockey.

roz_the_goat • 1h ago

shut up you homophobic asshole no way will they fire two of the best players in the fucking league

capboiziau • 1h ago

But doesn't this put doubt on all of their games against each other? Like... if they've been together for a while isn't there a risk that they have thrown games for each other.

hollzy_shane • 1h ago

There is no way you just said that Shane Motherfucking Hollander, the man that lives and breathes everything hockey, would throw a game for someone on another team. Are you insane? I think that if Hollander found out that Rozanov had ever fixed a game for him Hollander would kill him

rozy_cheeks • 1h ago

but guys. ilya is russian. isn't there a risk that the russian government will try to get him extradited so they can put him on trial for the crimes of being queer? like he could be jailed or die or something. he can never go back to russia. he is completely cut off from his country. this is such a horrible situation oh my god.

i love that for them. i hope they can live happily.

sailingmaster • 2h ago

this is so cool to see. i'm only like aware of a bit of mhl stuff but it seems like such a tough environment to be queer in, especially the way they've been keeping it secret for so long.

queersticks • 2h ago

yeah it must have been terrifying for them to see that video be posed (fuck you brad)

notchoppedjustunc • 2h ago

their story lowkey reminds me of this guy that used to post on here asking for advice. he also worked in a really shit environment

queersticks • 2h ago

wait... why does this has so many similarities to hollanov....

notchoppedjustunc • 2h ago

ohhhh my goddd. if this is real i can't believe i said "dude you're GAY" to shane motherfucking hollander fuck my chungus life

i hope you all enjoyed that. i wanted my first fic to be something with a bit less stakes for me to write and i love love love social media fics. i'm still kind of trying to get my bearing and understanding of these characters and their voices so i hope i somewhat did them justice.

not sure when or if i'll post another fic in this fandom, but we'll see!

ps. also please let me know if i need to adjust any fandom tags, i tagged the game changer series fandom because of my timeline use and i used some names and partly scenes that i know happen in the long game so just lmk im happy to adjust them!
