I think this movie is a masterpiece and i'm restarting it again as i type. i'm very glad i started watching from the original trilogy and not from the prequels as my boring husband suggested. also Han solo is very hot he reminds me of myself

ilyushka81: i love that you get cold when it's 71 degrees out. i love that it takes you an hour and a half to order a sandwich. i love the way you furrow your brows when you don't understand something. i love how you scrunch your nose when i say something funny because you don't want me to believe it's hilarious. i love that everything in our house smells like us. i love that you're the last thing i see before falling asleep and the first thing i see waking up. and that after all these years spent together i forgot the meaning of the word lonely.

giing24le: well Who's the sap now.

Hamilton 2020

Watched June 18, 2025

my husband fell asleep watching The phantom of the opera but managed to stay awake during the entirety of this. He has a lot of opinions and cussed hamilton out most of the time. In my opinion americans are kinda stupid but mad respect for Aaron burr. also I found the hamilton playlist on spotify and i think my husband would want to move out soon because we will be listening only to these songs for the rest of the month

edit: i can't believe this is based on a true story. who knew the founding fathers could spit bars like that

edit two: my favourite song was Your obedient servant or satisfied. my husband's is Wait for it
